CS 4513 Course Readiness Checklist

Work through this checklist in order to get prepared for the course.
1. Read the syllabus very carefully.
2. Purchase the textbook.
3. Check that you have all the hardware and software you will need for this course (check syllabus).
4. Identify how you will scan your homework and written work. Have you got easy access to a scanner? Can you download a free scanning app to your smartphone or tablet?
5. Set up a Zoom account so that you can communicate with your instructor and TAs.
6. Create a weekly study schedule.
